STAT

Dear 

STAT

A line to express my apologies for not calling you again before I left. I got so tied up running around making appointments that frankly I forgot until evening when it was time to board the plane. In the rush of catching up back here, however, I have noticed that you apparently got everything squared away.

I want also to take this opportunity to commend you personally on doing a very fine job, including all pertinent detail.

It is my sincere hope that you will enjoy and make a great success of your studies in the coming year and that we will then hear from you again, even in-between-times, as the mood strikes.

Sincerely,
